ABOUT ME

Backend Software Developer with 2+ years of professional experience designing and developing secure, scalable, and high-performance web applications using ASP.NET Core, C#, SQL Server, Entity Framework Core, and Microsoft Azure. Experienced in building RESTful APIs, implementing JWT Authentication, optimizing database performance, and developing cloud-based backend solutions. Passionate about designing clean, maintainable software using modern backend engineering practices and continuously expanding expertise in cloud technologies and system design.

SKILLS

Backend:
ASP.NET Core | RESTful APIs | Entity Framework Core | JWT Authentication | Clean Architecture | Dependency Injection

Languages:
C# | JavaScript | SQL

Databases:
Microsoft SQL Server | MongoDB | Azure Cosmos DB

Cloud:
Microsoft Azure | Azure Virtual Machines

Frontend:
React.js | HTML5 | CSS3 | Bootstrap

Tools:
Git | GitHub | Postman | Swagger/OpenAPI | Visual Studio 2022 | Visual Studio Code | GitHub Copilot

WORK EXPERIENCE

2023-2025

QuiperSoft Technologies Pvt Ltd.- Junior Software Developer 2024-2025

- Developed and maintained RESTful APIs using ASP.NET Core and C# for enterprise applications.
- Implemented JWT Authentication and role-based authorization to secure API endpoints.
- Designed and optimized SQL Server database queries, stored procedures, and Entity Framework Core operations.
- Collaborated with frontend developers to integrate APIs with React.js applications.
- Participated in debugging, testing, and resolving production issues to improve application stability

ExcelGoodies Consulting, Inc.- Junior Software Developer 2023-2024

- Designed and developed scalable backend services using ASP.NET Core Web API following Clean Architecture principles.
- Built secure REST APIs with JWT Authentication, authorization, and robust exception handling.
- Developed Azure-based backend workflows using the Azure SDK for virtual machine provisioning and management.
- Optimized SQL Server queries and Entity Framework Core operations to improve application performance.
- Collaborated with cross-functional teams during feature development, code reviews, and deployment activities.

PROJECTS

EduFlow AI – AI-Powered SaaS Study Planning Platform

ASP.NET Core 10 Web API, C#, React.js, SQL Server, MongoDB, Entity Framework Core, JWT Authentication,Google Gemini API ,Ollama, Bootstrap, Git

- Designed and developed a cloud-based SaaS study planning platform that generates personalized study plans based on user goals, priorities, deadlines, and available study hours.
- Developed secure RESTful APIs using ASP.NET Core Web API, implementing JWT Authentication, role-based authorization, and refresh token authentication.
- Built modules for user management, goal management, task scheduling, planner engine, progress tracking, and dashboard analytics.
- Integrated SQL Server and Mongo DB to support relational data, flexible document storage, and scalable cloud data management.
- Integrated Google Gemini for cloud-based AI capabilities and Ollama to run local LLMs for AI-assisted study planning and recommendation generation.

Azure Resource Management Platform

ASP.NET Core Web API | .NET 10 | C# | Azure | React | SQL Server

- Developed a custom Azure resource management platform using ASP.NET Core Web API (.NET 10) and the Azure SDK for .NET to manage and monitor selected Azure resources through REST APIs.
- Integrated Azure Resource Manager using ArmClient and DefaultAzureCredential, enabling programmatic access to Azure subscriptions and resource-management operations.
- Implemented Azure subscription and Resource Group management, including resource discovery, creation, retrieval, and deletion through Azure Resource Manager APIs.
- Designed Virtual Machine and Storage Account management workflows, covering resource provisioning and lifecycle operations such as start, stop, restart, and deletion.
- Built a centralized Azure management dashboard providing resource visibility, subscription information, resource summaries, and operational activity through a custom web interface.

EDUCATION

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY 2025-2027
MASTERS OF COMPUTER APPLICATIONS (MCA)
CGPA: 9.04/10

RAMAKRISHNA MISSIION VIVEKANANDA COLLEGE 2020-2023
BACHELOR OF COMPUTER APPLICATIONS (BCA)
CGPA: 7.896/10

MAHARISHI INTERNATIONAL RESIDENTIAL SCHOOL 2020
Higher Secondary (CBSE)
Percentage: 72.4%

LALCHAND MILAPCHAND DADHA SENIOR SECONDARY SCHOOL 2018
Secondary (CBSE)
Percentage: 79.6%

CERTIFICATIONS

MICROSOFT CERTIFIED: AZURE DATA ENGINEER ASSOCIATE Earned 2025, Currently Expired

Designed and implemented data solutions using Azure services such as Azure Synapse Analytics, Azure Data Factory, and Azure Databricks
