ABOUT ME

Software Developer with 2+ years of experience building scalable and secure server-side applications and RESTful APIs. Strong hands-on expertise in C# and ASP.NET Core for backend development, with solid experience in database design using SQL Server. Experienced in API integration, backend architecture, and cloud-based deployments on Azure. Frontend technologies like React.js are used primarily for API integration.

SKILL

BACKEND: RESTFUL APIS, BACKEND ARCHITECTURE, AUTHENTICATION & AUTHORIZATION, API INTEGRATION

LANGUAGES & FRAMEWORKS: C#, .NET (CORE, .NET 6+), ASP.NET CORE WEB API
